

Hub Q50 Mesh

Quick Start Guide

1. Product Introduction

Xunison Hub Q50 Mesh is a high-performance router with an ability to build powerful Wi-Fi Mesh network. Additionally, the product supports concurrent device connections providing seamless internet connection with the speeds up to 5400 Mbps.

Wi-Fi 6 (ax)

This device is equipped with Wi-Fi 6 technology, which means it can support multiple Wi-Fi standards including 802.11a/b/g/n/ac/ax. As a result, it can provide seamless connections with both modern and older Wi-Fi devices.

Smart Home

Supports Z-wave, Zigbee and BLE devices.

Mesh

Mesh technology boosts Wi-Fi coverage, eliminates dead zones, and ensures reliable connection. It also offers easy setup with rapid one-button pairing.

Xunison Hub Q50 Mesh

Parental Control

This feature helps parents monitor and control their child's internet activity. It includes web content filtering, time limits, and social supervision, promoting online safety and responsible habits.

2. Product Installation

2.1 Ensure the cables are connected.

1. Connect the power cable (labeled "1") to the device.
2. Press the power button (labeled "2") to turn ON the device.

Xunison Hub Q50 Mesh

2.2 Product Configuration

Step 1: Connect your mobile device to the Xunison Hub Q50 Mesh network by entering the Wi-Fi details printed on the device sticker.

Step 2: To install the Xunison app, you can either scan the QR- code on the welcome card.

OR

Step 2: Alternatively, you can download the Xunison app from Google Play store or App store.

After installing the app, log in with your registered account to access the features of Xunison Hub Q50 Mesh
